

## Challenge

## PADDY WAGON<sup>®</sup>

Put away your bricks, blocks and boards. The **Paddy Wagon** design eliminates the mess associated with pad production. Integral shelves store all your padding equipment and double as a spill apron to catch excess padding compound. Table edge and clamping bar are designed to reduce compound buildup. Excess compound is easily removed with your padding knife.

## CHECK THESE FEATURES:

- Easy 1-2-3 Operation
- High-capacity
- Portable - Heavy-duty Casters
- Welded Tubular Steel Construction

## Turn your padding operation from messy inconvenience to high-capacity profit center with simple 1-2-3 operation

### 1- Tilt & Load

With the double doors locked, tilt the Paddy Wagon back. The 30° table slant allows gravity to do all the work of aligning stock and keeping it square. Load up to 15,000 8½" x 11" sheets of 20# bond - even more with smaller sheets.

### 2-Clamp

After loading is complete, aligned stacks are clamped in just seconds. Place the clamping bar on top of your paper, slide the self-locking, quick-release clamps down to the bar and tighten the screws.

### 3-Tilt & Pad

Tilt the Paddy Wagon back to the upright position, lift the doors to unlock and swing them open for complete access to your padding surface.

## Specifications

### PADDING

Maximum Lift Width	23½" / 60 cm
Maximum Lift Height	31"   79 cm
Lift Depth	3" to 17" +   8 to 43+ cm
Sample Capacity	15,000 8½" x 11" 20# bond 15,000 A4 75g/m <sup>2</sup>

### DIMENSIONS

Pass-Thru Door Size	32"   80 cm
Overall Base Area	30" x 30"   76 x 76 cm
Overall Height	66½" / 170 cm
Net Weight (approximate)	100 lbs   45 kg
Shipping Weight (approximate)	120 lbs   55 kg

*The Paddy Wagon is covered by US Patent No. 4,146,942*
